Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is a Final Rejection in response to the amendment received on July 11, 2006 by **Petzi** et al.

Response to Arguments

1. Applicant's arguments with respect to claims 16-24 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 25 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by **Belliveau** (US 6474837).

4. In reference to Claim 25, **Belliveau** shows a portable lighting lamp, comprising:
 - A casing [Figure 6: (562)];
 - An emitting module equipped with a light-emitting diode for emitting a light beam [Figure 6: (500, 514, 516, and 518)];
 - A fixing and connecting element of said diode [Figure 6: (510)];

- And means for adjusting the light beam comprising one optical focusing device formed by at least one lens arranged on a transparent movable support to form a monoblock part [Figure 5A: (304, 306, and 308)], the support of the optical focusing device being movable manually between an inactive position situated outside a light emission field of the diode and an active position facing the diode to make the visualization angle of the light beam vary between broad lighting with a short range or narrow lighting with a long range [See column 9 lines 22-49, column 11 lines 9-13, and column 2 lines 51-54], wherein the light-emitting diode is connected at the rear of the casing on a heat sink and associated at the front with a magnifying glass which is located in an aperture of the casing, and wherein the movable support of the lens is arranged outside the casing, and placed in front of the magnifying glass in the active position [See column 15 lines 36-43].

5. In reference to Claim 26, **Belliveau** shows:

- The movable support is formed by a swiveling plate pivotally mounted around a spindle located under the magnifying glass, and outside the casing, the plate bearing on a fixed rim of the casing in the inactive position [Figure 5A: (304, 306, 308, 14, 16, and 18)].

Allowable Subject Matter

6. Claims 27-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
